MADE FOR YOU BY SANREMO

THE NEW SINGLE GROUP MULTI-BOILER MACHINE, NOT ONLY FOR THE PROFESSIONAL MARKET

Designed to allow total control of the extraction parameters and then... it's all up to you.

YOU was born to be more than a professional tool.

It is a personal assistant, thanks to the possibility of creating manual settings and saving them by inventing original recipes.

Inspiring you to continue to experiment, improve, dare.

PRODUCT PREVIEW

YOU

MADE FOR YOU BY SANREMO

YOU CREATE

MULTI-BOILER

Both boilers, coffee and services, are in **AISI 316 stainless steel**.

3 CONFIGURATIONS

_ with **tank**
_ with **connection to the water mains**
_ full with **both possibilities**

CONSTANT STABILITY

Even after prolonged dispensing, thanks to the **electronic control of pressure and temperature**.

CUSTOMIZABLE PRESETS

Extraction profiles customizable and storable:
_ **6 standard profiles** with optimal parameters presets
_ **12 profiles completely customizable** by intervening in all 3 extraction phases, and with the ability to totally disable pre-infusion and post-infusion
_ your **settable manual profiles directly from the Paddle**

VOLUMETRIC PUMP

New generation of 70 liters which **allows profiling**.

USER-FRIENDLY

The **touch-screen display is intuitive** with inspired navigation menus to the smartphone APPs.
_ **Quick menu**: choose three extraction profiles which can be accessed with a single touch.
_ **General menu**: all functions are easily reachable, even washing and technical assistance.

YOU ARE IN CONTROL

1. Thanks to the **front lever (Paddle)** you can change the pressure however you like instantly creating curve custom settings.
2. Monitor the **extraction in real time on the display**.
3. **Memorise your favourite settings** to retrieve them whenever you want.

YOU PLAY

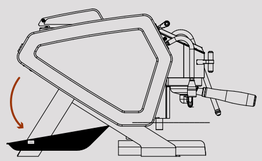

FRESH WATER

Instant freshly heated water for higher quality infusions.

Small tank size to **avoid prolonged water stay** and to improve the total quality of the final product.

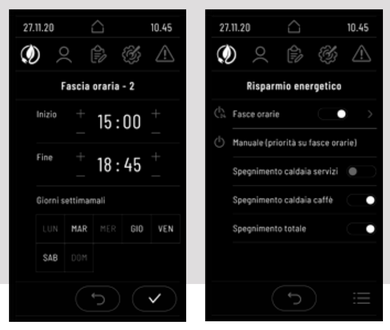

EASY SERVICE

The flap opening on the back allows for easy maintenance of the electronic components.

ENERGY EFFICIENCY

Thanks to two eco / on-off modes:
Automatic
allows you to select 6 bands hourly daily / weekly.
Manual
allows you to switch off and on the machine manually or individual boilers.

SPEED AND ERGONOMICS

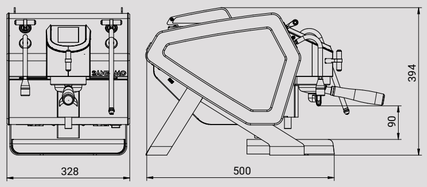

Start / Stop levers to activate water and steam with just one click.

Steam and water wands Cold Touch.

USB ENTRANCE

For software updates and loading profiles.

TECHNICAL DATA

Voltage	Version 1	220-240V
	Version 2	110-120V
	Version 3	100V / 50-60 Hz
Power consumption		2.35 kW
Steam boiler capacity		1 lt
Steam boiler resistance power		1.5 kW
Coffee boiler capacity		0.5 lt
Coffee boiler resistance power		500 W
Net weight		32 kg
